

No Stack®

The most effective way to prevent shipping damage!

When you start adding up the cost involved in damaged shipments, **No Stack®** can save you thousands of dollars annually. Whether you ship or receive, with **No Stack®** you always come out on top. This simple concept helps prevent damage to your shipment once it is out of your hands.

- Easy to see international attention symbol, warns those against double stacking your important shipments inside common carrier trucks.
- Straps easily to the top of your pallet, or simply attach with packaging tape.
- 3 dimensional anti-stack warning device that easily crushes if stacked on—proof that your shipment was mishandled.
- Keep your customers happy by preventing damage to their shipment. Reduce damage claims and lower insurance costs.

U.S. Patent #5769598

Ships flat, easy to store and easy to use.

Make sure you always come out on top with "No Stack.™"

▲ Shipments with "No Stack®" arrive fine.

◀ Your shipment winds up on top.
